

多功能集成模块

Multifunctional Integration Modules

典型应用 Typical Applications

- 调压调频变频器
- 不间断电源
- 逆变焊机
- 开关电源
- 伺服电机驱动放大器
- 新能源
- VVVF inverter
- UPS
- Electronic inversion welding machines
- SMPS
- Servomotor drive amplifier
- New energy

特点 Features

- 高导热电绝缘陶瓷基板
- 良好的热疲劳性能
- 高的浪涌能力
- 标准国际封装
- High performance thermal conductivity ceramic electrically isolated baseplate
- Good thermal fatigue performance
- High surge current capability
- International standard package
